September 7, 2026

To: ALL HOSPITAL MEMBERS OF THE PHILIPPINE HOSPITAL ASSOCIATION (PHA)

Dear Sir. /Ma'am. /Doctor:

Warm greetings. We are happy to share that the Dr Bidder Platform has successfully completed beta testing with 10 PHA member hospitals and 5 PHA partner suppliers. We are now preparing for its formal launch and would be pleased to welcome your organization as part of this initiative.

Dr Bidder was created with a simple goal: to make hospital purchasing easier, more transparent, and more affordable. The initiative is supported by the Memorandum of Agreement between the Philippine Hospital Association (PHA) and Vireo Loadworks Inc., signed by then PHA President Jose P. Santiago, Jr., and is being implemented under the leadership of current PHA President Dr. Maria Lourdes K. Otayza.

Through the platform, hospitals can bring together their purchasing needs and post requirements for medicines, medical supplies, equipment, and other essential items. Partner suppliers can then submit competitive offers, allowing hospitals to compare options, benefit from combined purchasing power, and find better value without going through an unnecessarily complicated process.

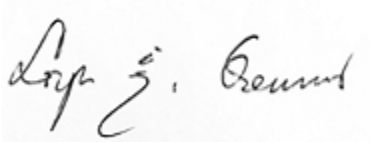

We also understand that finding the right equipment is only one part of the challenge; funding it is often just as important. Through Dr Bidder's partnership with Security Bank, qualified hospitals may explore financing options for eligible equipment and other purchases. Financing remains subject to the bank's applicable requirements, terms, and credit evaluation.

Dr Bidder can also help hospitals find buyers for surplus or pre-owned equipment, instruments, furnishings, and other assets through competitive bidding, subject to the platform's procedures and the terms agreed upon by the parties.

The platform link will be made available through the PHA website and sent to your official email address, together with the participation guidelines and an explanation of the bidding process.

We sincerely invite your hospital to take part. Every participating hospital and supplier helps build a stronger and more responsive healthcare community - one in which institutions can obtain what their patients need while making responsible use of their resources. We look forward to working with you and to welcoming you to Dr Bidder.

Respectfully yours,

LOYSA ORENSE, M.D.
